

# NEW OPTIONAL SAAP INSURANCE

## SAND AND ASH PROTECTION

For our customers protection we have decided to offer an insurance which covers our customers against damage due to ash/sandstorm damaging the paint of the car, windows, lights and plastic. These damages can cost between 300.000 to 1.500.000 ISK to fix.

By purchasing SAAP the self risk in case of damage from sand and ash is lowered to 90.000 ISK. We offer the SAAP for 1.500 ISK per day.

Volcano eruptions in the past years have increased the risk of damage to the paint and windows of all cars and no insurance company will cover these damages. In high winds and dry weather the ash from the volcanos and sand in the south coast can cause huge damage to the cars and all the cost has fallen on the renter, until now.

SAAP for 1.500 ISK per day
